TEST REPORT

Screen Reader ALO — Windows Application

Milestone 4 · Hotkey & Accessibility Feature Verification

Product	Screen Reader ALO (Windows)
Milestone	Milestone 4
Test Type	Manual functional / accessibility hotkey testing
Report Date	20 July 2026
Total Test Cases	154
Overall Result	153 Passed / 1 Failed

1. Executive Summary

This report documents the Software Quality Assurance verification of the Screen Reader ALO Windows application for Milestone 4. A total of **154** hotkey and accessibility test cases were executed across **10** functional modules. Each test case verifies that the screen reader correctly announces or performs the intended action for a given keyboard shortcut.

Of the 154 cases executed, **153 passed** and **1 failed**, giving an overall pass rate of **99.4%**. The single failing case is in the Microsoft PowerPoint module and is detailed in Section 4.

Result overview

Total Cases	Passed	Failed	Pass Rate
154	153	1	99.4%

2. Results by Module

Module	Test Cases	Passed	Failed
Windows Application — System	9	9	0
File Explorer	3	3	0
Microsoft Word	27	27	0
Microsoft Excel	17	17	0
Microsoft PowerPoint	14	13	1
Web Browser (Chrome)	17	17	0
YouTube	4	4	0
Facebook	9	9	0
Gmail	21	21	0
Zoom	33	33	0
TOTAL	154	153	1

3. Detailed Test Results

Default result is **Pass**. Cases marked **Fail** are shaded and correspond to the items flagged during testing.

Windows Application — System

No.	Hotkey	Description	Result	Comments
1	Alt + B	Announces the current battery status, including the battery level and charging status.	Pass	
2	Alt + T	Reads aloud the current time, helping users keep track of the time without visually checking a clock.	Pass

21	Shift + Tab	It can traverse between intricate chat window properly and speaks focus item [BACKWARD]	Pass	

Zoom — Chat Management

No.	Hotkey	Description	Result	Comments
1	Ctrl + N	Focus moves to new Chat	Pass	
2	Ctrl + F	Announces search field	Pass	
3	Up Down arrow	Announce the Chat details	Pass	
4	Enter	Enter the chat	Pass	
5	Ctrl + Shift + F	Reads search context	Pass	
6	Ctrl + P	Open Profile	Pass	
7	Ctrl + Shift + M	Announces chat muted	Pass	

Zoom — UI, Text Navigation & Deletion

No.	Hotkey	Description	Result	Comments
8	Tab	Announces focused element	Pass	
9	Shift + Tab	Announces focused element	Pass	
10	Up Arrow	Reads previous message/line/element	Pass	
11	Down Arrow	Reads next message/line/element	Pass	
12	Alt + S	Open Settings	Pass	

4. Failed Test Cases

1 test case(s) failed and require developer attention:

Module	Hotkey	Description	Result
Microsoft PowerPoint	Ctrl + M	Adds a new slide to the presentation, helping expand and organize content.	Fail

Observation

The Microsoft PowerPoint shortcut Ctrl + M (Add a new slide) did not perform / announce the expected action during testing and is reported as Fail. A re-test is recommended once the fix is applied.

5. Conclusion

The Screen Reader ALO Windows application demonstrates strong accessibility coverage across all tested modules, with **99.4% of test cases passing**. One defect was identified in the PowerPoint module (Ctrl + M). Overall the build is in good quality standing for Milestone 4, pending resolution and re-verification of the single failing case.
